

WP32 SUPER MINI FOAM FILLED

ALUMINIUM PLANT ON SHUTTER

• **Ultimate all aluminium design**

• **Stylish and compact shutter boxes**

• **Automatic locking system**

• **Aesthetically pleasing modern design**

• **Reliable trouble-free operation**

Roller Shutters are exposed to all types of weather and environmental conditions. That is why Warm Protection's Domestic Roller Shutters are double coated then finished with a final PVC lacquer coating to protect against corrosion and UV degradation.

The profiles are precision roll formed from high quality aluminium alloy then injected with a foam core for additional strength, security and a smooth silent operation.

Warm Protection's Domestic Roller Shutters have many uses and advantages including:

- A unique locking system, which increases protection against vandalism and burglary.
- Can protect furnishings from the harmful fading effects of the sun.
- Can keep a room cool in summer.
- Can provide blackout if required.
- Can reduce unwanted noise from outside your home and therefore improve sleeping conditions.
- Can help to reduce heating costs by retaining heat.

Warm Protection Domestic Roller Shutters are available in a wide range of attractive colours to compliment your home.

Please contact our Technical Department for further details.

• **Fitted externally but operated internally**

• **Small, neat compact shutter boxes**

• **CFC free foam filled profiles**

• **Automatic locking system**
