

WP77 VISION MASTER

77mm PUNCHED ALUMINIUM SHUTTER

Security by Design Automatic Roller System

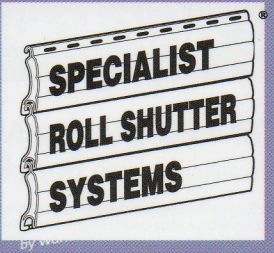

- High quality 'see-through' shutter
- Strong and secure aluminium sections
- Aesthetically pleasing modern design
- Reliable trouble-free operation
- Roll on automatic roller system for wide doors
- Optional Lexan infills to cover punched sections

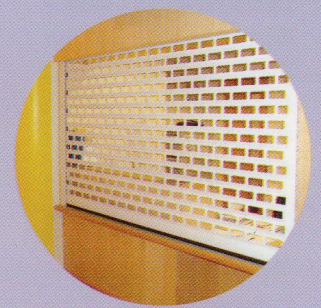

The WP77 Vision Master all aluminium roller shutter has been developed with safety and security in mind. The double skinned aluminium top and bottom sections of each profile ensure strength and stability over large spans with punched out sections giving visibility without compromising on security.

Ideal for any application where vision and security are required the Vision Master will give you peace of mind wherever the installation. Available up to 6 meters wide in an array of colours the Vision Master will compliment any application that it is applied to.

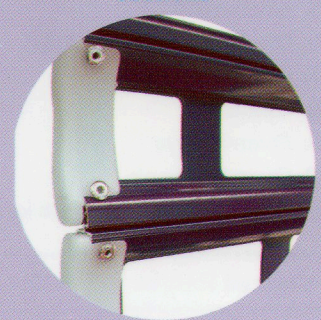

Electrically operated as standard the Vision Master shutter is powered by Somfy tubular motors to ensure a reliable trouble free operation everytime. For ultimate security 2mm lexan strips can be inserted to cover the punched out sections of the profile ensuring total security.

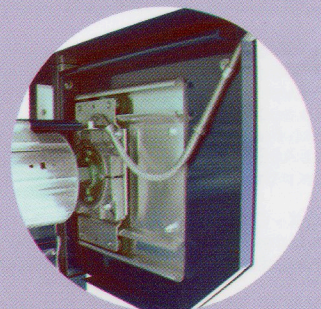

- Perfect security for the retail market

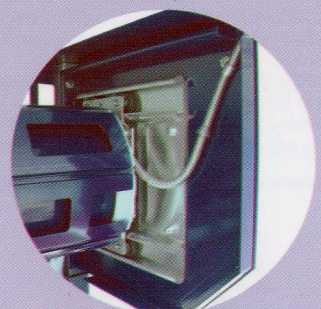

- Secure aluminium sections

- High Impact Polyamide Endlock

- Optional Safety Break System

- Sliding Endplate System on large doors
